

# THE MORNING SPARKLERS

APRIL NEWSLETTER

— . — . — . — . — . — . —

# First day of school

As we kick off the school year, let's strive to make every day count and create lasting memories

# Field trip

On this field trip, we'll have the opportunity to learn firsthand, explore new places, and create lasting memories together.

# Poster Making Competition

A poster making competition fosters creativity, encourages artistic expression, and provides a platform for individuals to communicate powerful messages visually

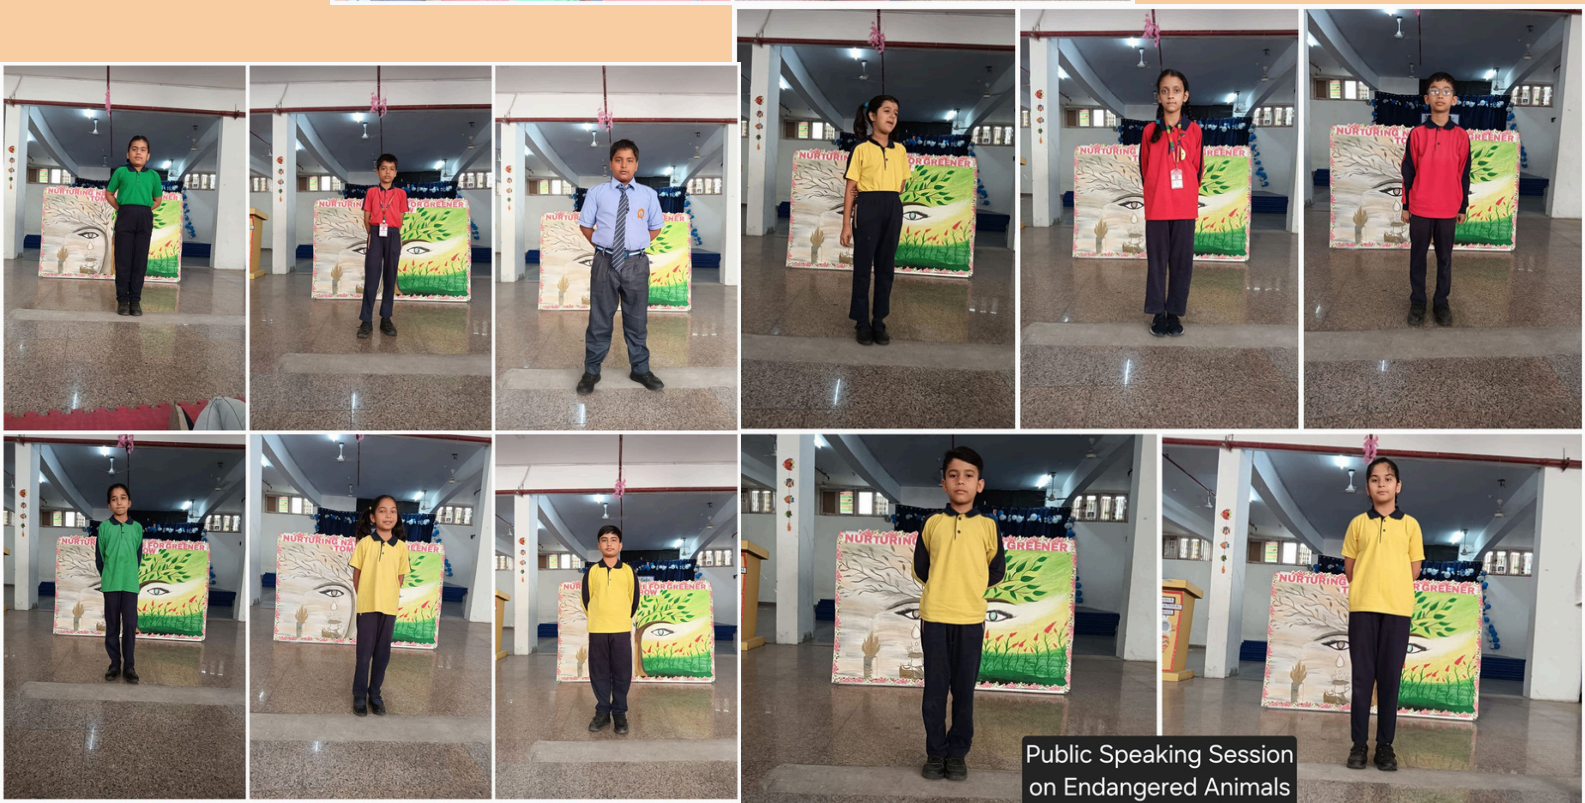

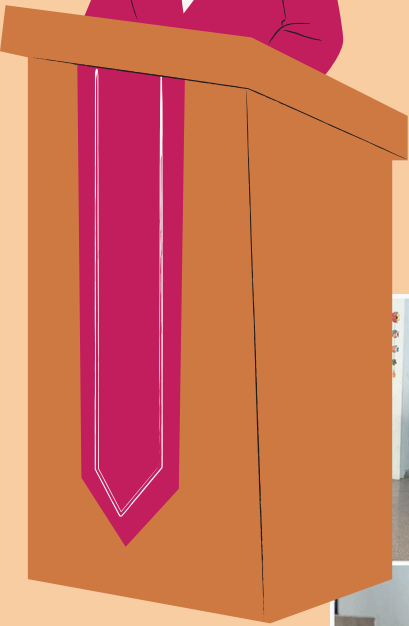

# Learning through experiencing

# Public speaking session

Public Speaking Session  
on Endangered Animals

# Paper Activity

Paper activities promote creativity, fine motor skills, and cognitive development in children, offering a hands-on and versatile way to learn and express ideas

# World Earth Day

World Earth Day is a global observance promoting environmental awareness and action, highlighting the importance of protecting our planet and fostering sustainability for future generations.

# Fancy dress competition

Dress from Waste Material: Transforming Trash into Fashion. Embrace creativity and sustainability by designing innovative outfits using recycled materials. Showcase your eco-friendly fashion sense and inspire others to rethink waste.

Snapcial

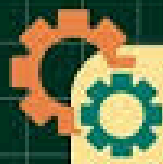

# English Debate Competition

It provides a platform for individuals to engage in constructive dialogue, explore diverse perspectives, and develop confidence in expressing their opinions effectively.

# Mind-Boggling Science Facts For Children

A person's sneeze can travel at a speed of about 100mph.

The earth, the moon, and the sun are around four to five billion years old.

We cut down around 27,000 trees every day to make toilet paper.

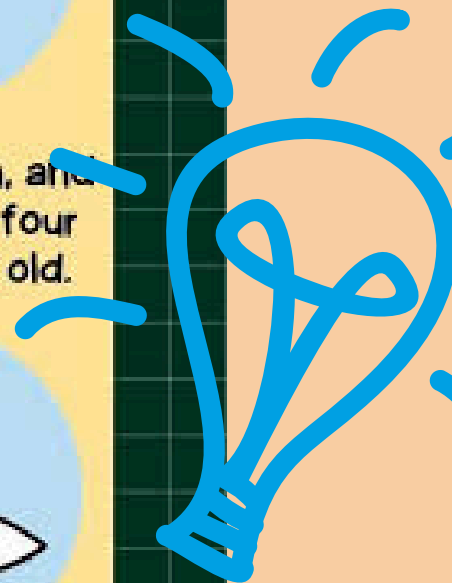

Octopuses have three hearts.

The oldest living tree in the world is in California and is around 4,843 years old.

The space, all of it, is completely silent because there is no medium or mechanism to allow sound to travel.

Thank you
